Hi Grandpa,

My Dad said that you were collecting pictures of the family, when they were at the ranch, and that you didn't have a good picture of Shawn. Here is a copy of a picture of Shawn and I under the tree behind the barn, looking out to the pasture. We thought it looked like an ideal setting for a picture with all the clover on the ground, and the draping branches from the tree. Also, I am sending a few pictures of my rose bush, and one that was at the ranch by the barn door. There is a very interesting story behind them. A story that I believe Mimi wrote specially for me. The day I found out that she had passed away, I had noticed that the red climbing rose bush, in the picture, was growing up through the middle of my orange and white rose bush, of a completely different variety. It grew there until after her funeral, and hasn't grown back since. The thing that makes it even more special, is that when we went to the ranch after her funeral, the same red climbing rose was growing next to the house, and a single bush was growing, all alone, next to the barn door. I just thought you might like to hear this story, because I believe it was Mimi talking to me, to let me know that she is happy, and to know that she will always be here with me. That is my special memory of her, one that is all my own.

Love,  
Tammi

Hi Mom and Dad,  
Jan Kikuchi lives up the street on Wheelock. She talked to the couple living in the mobile home. They said someone was on the roof by the palm tree. On the porch cover welding. Maybe doing some soldering on some copper pipe is my guess. Anyway she said welding. Some sparks got into the wall (I couldn't quite understand what exactly she was describing) and didn't realize it. Later it caught fire. Thanks for sending the picture. I'll save the article in the paper if it makes print. Jan says they were going to move in this week.

Love,  
Dan

Hi Dan,

Here's a picture that Donna took when they went over to check.

Love, Dad

"[Hope is] when there is not, from the human point of view, any means of escape; when there is not, in a reasonable expectation, any positive results; when there is no longer, apparently, any history still possible; when there is no longer any possibility in any sense; then hope is the affirmation of the 'in spite of.' Thus in the presence of death, which is total, without illusion or consolation, without belief in a survival or an immortality of the soul, hope is the absurd affirmation of the reality of the resurrection. It is then the affirmation of total risk, it is the step forward into the void."

## COPS AND COURTS

### SANTA CRUZ

## Wildland fire under control

A wildland fire at Terrace Grove Road that started early Sunday morning has been controlled, fire officials said.

The 3-acre fire started at 2 a.m. at 25265 Terrace Grove Road, off Old San Jose Road. Crews were able to locate the fire at 5 a.m. after conducting a smoke check in the area, said Fire Capt. Bill Tomkovic, California Department of Forestry and Fire Protection.

About 20 people responded to the fire, including seven fire engines, two fire crews and a helicopter.

The fire is expected to be fully contained by today, he said. No structures are in danger of burning.

"Conditions are dry," he said.

"It's the driest time of year; people need to be careful."

The cause of the fire is under investigation.

### WATSONVILLE

## Crews respond to structure fire

A fully involved fire at a two-story residential structure was expected to be contained by Sunday night, according to the California Department of Forestry and Fire Protection.

Heavy smoke and flames were reported at 5:20 p.m. at 1184 Green Valley Road, across Pioneer Road.

Fire crews from Watsonville and Aptos also were at the scene to help get the fire under control. There were no reports of people inside the structure, and the cause of the fire is under investigation.

# Cause released in Green Valley Road fire

By MATT FARLEY  
OF THE REGISTER-PAJARONIAN

A fire that broke out Sunday evening in a house at 1184 Green Valley Road was likely started by a roofer working to remodel the building, California Division of Forestry Capt. Scott Agnelli said Monday.

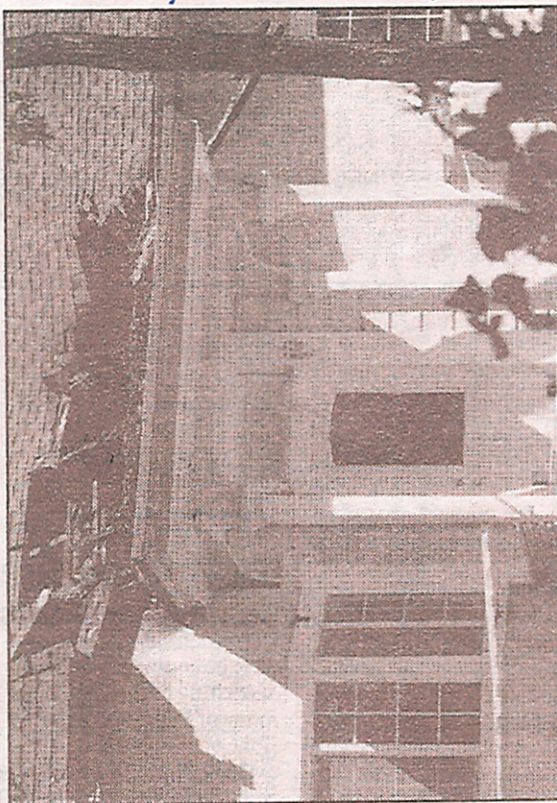

Work began on the house in July and the would-be residents had planned to move in on Monday, they said. The two-story, four-bedroom structure had been completely redone, from the flooring to the walls, and torching down a portion of the roof was the final step.

"Pretty much everything you can think of was brand new," Agnelli said. "There wasn't any real damage to the living space, but it

went noticed for several hours, Agnelli said. Firefighters from the CDF's Pajaro Valley station responded to the first reports of flames at the home about 5:15 p.m. Upon arriving, they saw smoke pouring from under the eaves in a "working attic fire."

Responders were able to contain the blaze to the front attic area, but a wide hole was charred through the roof and the house sustained water and smoke damage.

The fire was knocked down within an hour, and firefighters left the scene about 10 p.m., Agnelli said. No one was home at the time of the fire, which caused an estimated \$200,000 worth of damage. Would-be residents at the house Monday said the incident would

Hi Dad & Mom,

Here are some pictures of Zachary and Tina at the finish of the marathon with their blue ribbons. Zachary has been running at school for the last few months to build up to the total of 26 miles, and ran the last 2.5 miles today. His time was 21 minutes and 50 seconds. He is a fast runner. The actual race started at Folsom Dam and ended at the State Capital. Zachary will get a medal for the race at school in January. Hope you are both doing well. We will be staying home for Christmas, so hope you have a very Merry Christmas.

Love,

Cres & Vicki
